# 2008 Equine Dentistry for Veterinarians

## Intro workshop – 5 Day Intensive

Come and discover why equine dentistry is one of the fastest growth areas in equine vet practice today.

- Dentistry is an ideal “bread and butter” way to grow your practice
  - whilst performing an interesting high standard of work
  - **whereby everyone benefits – the horse, owner and the vet!**
- **See why** top level horse trainers value equine dentistry so much.
- **Learn how to diagnose and treat** oral conditions using techniques that are safe, scientific, effective and NOT physically demanding.
- **Enjoy** the fun, passion and ongoing camaraderie which over 250 Australian and NZ equine vets have already experienced at our workshops and beyond — over the past 6 years — most of them declaring it the best value for money post graduate course they've ever attended!

### 5 DAY INTRO WORKSHOP— 2008

**June 17-21, 2008** (Tues to Sat)

Registration fee: **\$3300 ex GST**  
**(\$3630 AUD inc GST)**

Includes: notes, lunch, morning and afternoon teas

To be held at **Grafton, NSW**

*330 kms or 4 hrs drive south of Brisbane — flights from Sydney into Grafton and Coffs Harbour (1 hr drive from Grafton)*

**PLEASE REGISTER USING FORM ATTACHED VIA FAX / MAIL**

**EARLY BIRD SPECIAL – 10 % DISCOUNT IF PAID PRIOR TO DEC 15, 2007**  
**Book early to avoid disappointment as places are limited and will fill fast!**

#### EXPERT ADVICE

This 5 day workshop has **15 hours of lectures** plus **28 hours of practical experience** on cadavers and live horses.

- **Key Speaker: Assoc Prof Gary Wilson BVSc, MVSc, MACVSc**, author of equine dentistry textbooks, Cert Teaching and Consultant in Vet Dentistry at University of Queensland.
- The workshop contains **strong practical components** where each registrant is supervised and **completes multiple dentals** on live horses in a simulated work environment — **with 1 tutor per 2 pairs of vets** present to guide and assist.

#### TOPICS COVERED

- Anatomy and ageing
- Instrumentation
- Restraints, anaesthesia and nerve blocks
- Performance floats, incisor work, wolf teeth, premolar and molar work, “bit seats”
- Mouth abnormalities, pathology, examination, diagnosis and treatment
- Radiology techniques and evaluation
- Temporo-mandibular joint (TMJ) problems
- Geriatric dentistry
- Fitting Equine Dentistry into your practice
- Extraction techniques
